Introduction

Summer is just around the corner and parents are beginning to think about what activities will be available to offer their children for the summer as well as throughout the year. This familiar task is often a little more challenging for families of children with disabilities. In fact, individuals with disabilities may benefit from recreational opportunities throughout the year.

The State Support Team Region 3 (SST3) offers the 2016 Summer and Beyond Directory as a resource to parents, family members and school district personnel about extended opportunities around the Cuyahoga County area. Please visit our website www.esc-cc.org throughout the summer for updates to our directory.

The information in this directory is meant to be used as a reference and should not be considered comprehensive or an endorsement of any program or product. We do not make recommendations concerning the quality of these programs and strongly encourage readers to call the contact persons listed for clarification and explanation of their programs. Please visit our website www.esc-cc.org throughout the year for updates to our directory.

You may also contact your local community recreation departments, schools, county library branches, YMCA, YWCA, Scouts of America, and local cultural arts and entertainment centers for additional programs or activities.

Keep this book handy for NEXT YEAR’S planning!

<tr>
<td>AUT</td>
<td><strong>AUTISM</strong> – means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age 3, which adversely affects a child’s educational performance.</td>
</tr>
</tbody>
</table>
| ED   | **EMOTIONAL DISTURBANCE** – means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child’s educational performance.  
  - An inability to learn that cannot be explained by intellectual, sensory, or health factors;  
  - An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;  
  - Inappropriate types of behavior or feelings under normal circumstances;  
  - A general pervasive mood of unhappiness or depression; and  
  - A tendency to develop physical symptoms or fears associated with personal or school problems.  
  The term includes schizophrenia. It does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disturbance. |
| HI   | **HEARING IMPAIRMENT** – means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child’s educational performance but that is not included under the definition of deafness.  
  Deafness - means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, and that adversely affects a child’s educational performance. |
| ID   | **INTELLECTUAL DISABILITY** - means significantly sub average general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period that adversely affects a child’s educational performance. |
| OI   | **ORTHOPEDIC IMPAIRMENT** – means a severe orthopedic impairment that adversely affects a child’s educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g. cerebral palsy, amputations, and fractures or burns that cause contractures). |

Descriptor: Our specialty is helping children in all grades when they get stuck in a subject or course. We have skilled tutors for all subjects and all grades. We specialize in basic skills, reading and math, and working with children with learning differences.

When students fall behind, schools and parents sometimes find themselves in bitter meetings, pointing fingers and blaming one another. Often we can help resolve these situations with our neutral approach and the ability to see both sides of the issue. Our goal is to turn these challenges into academic successes.

Why choose North Coast Tutoring? Because we can provide answers, solutions, tutors, and a customized learning plan. All tutoring is done in your home or a nearby public location. We serve seven northeast Ohio counties. We are approved providers to the Autism Scholarship and Jon Peterson Scholarship programs.

Descriptor: The Zones of Regulation summer program is a curriculum created to help with emotional control, self-regulation and impulsivity. Emotional categorization is used to help children recognize and develop strategies and tools to regulate their emotional states. The first step is to learn the emotional states associated with each of the four color ‘zones’, and then children learn how to choose the right tools for self-regulation.

Being together in a group allows the children to share their ideas for tools. This also allows for a more collaborative environment. The Zones of Regulation requires practice in varied environments to be most effective, and allowing the children to work together helps each child apply the Zones to his or her life.

Descriptor: This 8 week group teaches adolescents the tools and skills to manage anxiety. Each session is 90 minutes in length. Group themes will include: identifying and challenging thoughts/self-talk that leads to anxiety, problem solving and goal setting, relaxation strategies, as well as mindfulness, acceptance and exposure techniques. “The Anxiety and Phobia Workbook,” 5th edition, by Edmund Bourne will be used as a resource to guide groups. Each week there are homework assignments, which are discussed as a group at the following session. This group will help you learn the skills you need to manage your anxiety and start living as a warrior, rather than a worrier.

Descriptor: A 6-week group is based on the theme of a journey, each session 60 minutes in length. Of course, the journey requires preparation and the ability to recognize certain road signs and to manage the vehicle in such a way that the children arrive safely at their final destination. “The ADHD Workbook for Kids,” by Lawrence Shapiro, Ph.D. will be used as a resource to guide some group discussions. Children with ADHD, will soon learn that although they are each a different kind of traveler and, at times, take a different route than others, they eventually arrive at the same destination. The metaphor of a journey provides opportunities to construct group activities that are fun and enable group members to develop skills that empower them.

Phone: 216-929-0026

Email: handerson@friendshipinteams.com

Website: www.friendshipinteams.com

Descriptor: The FIT program is a social skills program that offers all children a chance to make friends in a fun, movement-based environment. At FIT, children learn valuable social thinking, conversation, and self-regulation skills: the tools for connecting with peers and forming friendships. We believe strongly that children learn by doing, which is why we present lessons in a short, direct format and then jump into cooperative games and gross motor activities for practice. We also know the value of slowing things down to really focus on a particular social skill and giving children feedback about their performance. That's where the “halftime discussions” come into play. We include typical children in all of our activities because we know children learn best from their peers. The FIT programs are providers for Autism Scholarship and Jon Peterson Scholarship. We also accept family resource dollars. Check out our video on our YouTube channel at FIT: Friendship In Teams.
